What is the Local Education Task Force?

In Pennsylvania, a Local Task Force (LTF) is an advisory group focused on special education, established under the Right to Education Consent Agreement of 1972. The group operates within each of the state's 29 Intermediate Units (IUs). Their purpose is to ensure the spirit of the Right to Education Consent Agreement

Our Local Task Force is composed of the Intermediate unit 18, area LEAs, MHDS representation, an Arc representative, parents of students with disabilities, and any other private citizen or agency that serves to support the Right to Education for children with disabilities.
